

CALICO SOLAR PROJECT
Docket No. 08-AFC-13

Consideration and possible adoption of the Committee's Presiding Member's Proposed Decision on the ***CALICO SOLAR PROJECT*** (Docket No. 08-AFC-13), and possible Errata. The Committee issued its Presiding Member's Proposed Decision (PMPD) on September 25, 2010.

The proposed Calico Solar Project will be constructed on an approximate 4,613-acre site located in San Bernardino County, California approximately 37 miles east of Barstow and approximately 115 miles east of Los Angeles, California on lands managed by the Bureau of Land Management (BLM).

Calico Solar will produce a nominal 663.5 MW of electricity, and operate for a term of 40 years. The project is proposed for development in two phases. Phase I is located on approximately 1,876 acres. Phase II is located on approximately 2,737 additional acres. About 26,450 SunCatchers, configured in 442 1.5 MW groups of 60 SunCatchers will be constructed on the project site.

The PMPD contains the Committee's rationale in determining that the proposed project will, as mitigated, comply with all applicable laws, ordinances, regulations, and standards (LORS).
